Professional Summary

CPA Pro Qualified and ACCA Part Qualified finance professional with over seven years of experience in accounting operations, reconciliation, reporting and automation for international businesses. Connected ambiguous card-payment data to customer records, enabling a move to direct debit that saved approximately £200,000 in Barclaycard charges in one month, with further savings afterward. Automated bank-statement workflows across 100+ depots and reduced selected recurring finance processes from hours to minutes. Combines financial judgment with SQL, Python, Power BI, advanced Excel and business-system integrations.

Core Skills

Finance and analysis: Bank, card, supplier and balance-sheet reconciliation; AR and collections; journal entries; month-end support; GRNI/SRNI; variance, pricing and margin analysis; financial modelling; management reporting.

Data and automation: SQL, PostgreSQL, Python, Power BI, DAX, Excel, Power Query, VBA, Apps Script, APIs, OAuth, n8n, Make and Zapier; requirements, validation, SOPs and team coordination.

Systems: Redash, Zoho Analytics and Books, Google Sheets, QuickBooks Online/Desktop, Xero, Dynamics NAV, NetSuite, Odoo and SAP data entry.

Professional Experience

Revenue and Cost Reconciliation Analyst

Apr 2026 to Present

SWAPP / Direct Buy Tech FZ LLC | Contract | Islamabad, Pakistan

- Build SQL and Python reconciliation workflows across Redash, Zoho Analytics and Google Sheets, linking supplier invoices, booking costs, revenue and balance-sheet records.
- Developed reusable controls that reduced recurring reviews from hours to minutes and enabled finance users to run standardized reconciliations independently; classified variances across 20+ root causes.
- Identified AED 250K+ in potential supplier credit-note recoveries and processed 482 supplier credit notes using Python and Google Apps Script.
- Built missing-invoice alerts and handling-fee checks; prepare supplier, pricing and gross-margin analysis to support financial controls and commercial decisions.

Analyst Accounts Receivable

Dec 2024 to Apr 2026

Bestway Consultancy Services | Islamabad, Pakistan

- Linked ambiguous Barclaycard payment data to individual customers, enabling the team to request direct-debit payments and save approximately £200,000 in card charges in one month, with significant savings continuing afterward.
- Automated multi-bank statement splitting and preparation across 100+ depots, standardizing recurring inputs for posting and reconciliation.
- Reduced a recurring control-account reconciliation from approximately two hours to two minutes using Excel and Power Query; automated journal creation, reversals and selected cashbook workflows, cutting manual effort by up to 90%.
- Developed store-level variance dashboards highlighting high-risk locations, issue frequency and recurring discrepancies; supported cashbook, receipt and control-account reviews and auditor queries.

Freelance and Consulting Experience

Founder & Finance and IT Automation Manager Apr 2022 to Present

Finnovative Automations | Self-employed founder | Finance and IT projects | Remote

- Founded and lead a freelance finance and IT automation practice serving 50+ clients, combining hands-on project delivery with management of freelancers across client engagements.
- Delivered and oversaw retirement models, wealth-transfer trackers, payroll processors, P&L dashboards, purchase-order systems and CRM reporting using Excel/VBA, Power Query, SQL, Python, Apps Script, n8n, Make and Zapier.
- Manage client requirements, project scoping, task allocation, quality reviews, testing, documentation and handover; coordinate and mentor freelancers and develop AI-assisted workflow prototypes.

Earlier Professional Experience

Accounts Receivable Specialist Sep 2022 to Sep 2023

Metropolitan Warehouse and Delivery | US client | Islamabad, Pakistan

- Managed 50+ customer accounts across collections, cash application, invoice queries, credit memos and reconciliation; improved overdue-account follow-up and payment recovery.
- Reduced overdue accounts by 30% through targeted collections, invoicing and reconciliation; automated recurring VBA reporting, reducing reporting time by approximately 80%.

Credit Control Officer Jul 2021 to May 2022

Rainbows Communications | UK client | Islamabad, Pakistan

- Reviewed credit limits, resolved billing queries and negotiated payment plans, contributing to an 18% reduction in outstanding balances.

Audit Intern 2021

UHCA and Co | Islamabad, Pakistan

- Supported audit documentation, transaction testing, vendor-payment reviews and financial-statement preparation across 15+ engagements.

Branchless Banking and CPU Officer Sep 2018 to Jun 2020

Mobilink Microfinance Bank Limited | Islamabad, Pakistan

- Supported G2P, bulk, salary and social-welfare disbursements; maintained transaction reporting, cheque-book controls, TDR/PDC reconciliations and digital records.

Selected Projects

Payroll transformation: Built Excel/VBA tools to map Restaurant365 exports to Humi import templates, including employee hours, overtime, multiple pay structures and validation checks.

Financial planning: Developed retirement-planning models with contribution calculations, scenario simulation, multi-year projections, VBA user forms and dashboards; built budget-versus-actual reporting.

Project delivery and integrations: Built reporting and API workflows across Redash, spreadsheets and finance data; managed freelancer delivery of Google Sheets purchase orders, CRM/Looker Studio reporting and commission tools.
